

EXAMPLE ANNUAL REPORT #1

Arizona State Mine Inspector
1700 West Washington St. Suite 403
Phoenix, Arizona 85007

Date

Attention: Arizona State Mine Inspector (ASMI) Reclamation Department

Reference: Aggregate Mined Land Reclamation Annual Update for the
ACCURATE Aggregate Pit in Nowhere, AZ.

Dear Mr. Hart:

EXPERT Rock Products is submitting an annual renewal update for the reporting period of 2008, in accordance with Arizona Administrative Code (A.A.C.) Section R-11-3-504. The Annual Update is for the ACCURATE Aggregate Pit, located near Nowhere, AZ., in the County of La Paz.

1. **Status of the ACCURATE Aggregate pit:** EXPERT Rock Products has continued operations and have mined/processed very little during the year because of the economic slump. We continue as both Owner and Operator of the land. No address or other contact information has changed this year. We did reclaim 5 Acres, and disturbed an additional 20 Acres during the 2008 reporting period.

	<u>(previous Totals)</u>	<u>2008</u>	<u>Current Totals</u>
2. Area of the site:	160 Acres	same	same
Surface Disturbance	125 Acres	20 Acres	145 Acres
Area Reclaimed	0 Acres	5 Acres	5 Acres
Area Not Reclaimed	125 Acres	140 Acres	140 Acres

3. **Modifications to the approved plan:**

Expert Rock plans no amendments to the plan at this time. We have expansion plans for more acreage in the future, and will contact ASMI at that time, if this occurs.

4. **Financial Assurance:**

No changes to the financial assurance mechanism or costs will be necessary at this time, because costs were projected for the entire 160 acres in the approved reclamation plan. We are submitting the current bond amount, and /or financial updates with this update. (or we will submit current bonds soon, during the renewal date of the bond)

We hope this information meets with your approval and the requirements of the current rules. If you have any questions, please contact George at 602 -555-5555.

Sincerely,
Name /Title
